

# 7 Critical Questions to Ask Before Choosing a Dental Practice

## CHOOSE A DENTAL PRACTICE FOR YOU & YOUR FAMILY WITH CONFIDENCE

**1. How long has the practice and dentist been in operation?** The recent flood of dental practices in the Bloor West area may make it increasingly difficult to just pick one. Dr. Birgiolas and associates are proud to have been practicing in the Bloor West area for over 25 years.

**2. What specific dental procedures does the practice offer?** It's always important to make sure your dentist is trained in the specific dental treatments you require. Our preventative, restorative and cosmetic dentistry procedures include root canals, fillings, crowns, bridges, dentures, dental implants, teeth whitening, bonding, veneers, and full mouth rehabilitation. This includes cleanings and regular check-ups by registered hygienists as well.

**3. What does family-oriented really mean?** This can mean different things to different practices. We're more than a toy box. We can help you book your entire family (children, adults, and seniors) in a single visit, so you don't have to disrupt your busy schedule. The cavity-free wall of fame, activity chest, exciting take-home rewards, and experienced staff help to make your visit a calm one.

**4. How much should I be paying for a procedure?** Although dental practices are free to set their own fees, our fees are always based on current Ontario Dental Association suggested fee guidelines.

**5. Do they have before and after photos & testimonials?** Photos of a dentists past work can add confidence to your decision to choose a particular dentist. We're happy to show testimonials and before & after photos of previous patients so you can set reasonable expectations for your smile. We even welcome you to show us a photo of the result you'd like to see.

**6. How do they handle dental emergencies?** Nothing's worse than a chipped tooth, lost filling, or toothache. We always keep emergency flex time available, so our team will be able to help you right away.

**7. Is the dental team courteous, friendly, and professional?** We value honesty and integrity above all else, and we invite you to come see for yourself.

## WE'RE ALWAYS LOOKING FOR GREAT NEW PATIENTS!

- Family Oriented
- Convenient location at Jane and Bloor Subway
- Caring for Children, Adults, and Seniors
- Prompt Emergency Care
